Republic of Moldova

Dear colleagues,

It is a great honor for me to congratulate you on the 30th anniversary of the National Bank of Moldova.

Thirty years is only the beginning of a central bank's history. Over this time, you have managed to make a radical transformation from a post-Soviet institution to a forward-thinking, modern, and independent central bank that upholds European values.

You have a lot to be proud of. The National Bank of Moldova has successfully led your country through the years of major reforms and challenges:

- successful introduction of the national currency
- introduction of an inflation targeting regime
- change of the primary objective from national currency stability to price stability
- ongoing implementation of international best practices and approximation of financial and banking legislation to EU law.

The National Bank of Ukraine is proud to be a close partner of the National Bank of Moldova. We greatly appreciate our friendly cooperation, including technical, which has been strengthening in recent years. I am confident that the fruitful and constructive dialogue and mutually beneficial cooperation between our central banks will continue to thrive.

I wish the National Bank of Moldova further success, achievement of all its goals, and new remarkable accomplishments!

Yours sincerely,

Kyrylo Shevchenko
Governor
