The Anniversary of the Moldovan Leu, celebrated on November 29, will begin at the National Bank with a journey along the "Road of Money"

Over 200 students have registered to travel along the "Road of Money", a financial education event organized by the National Bank of Moldova in collaboration with licensed banks on the occasion of the Moldovan Leu Day, celebrated on November 29.

The excursion will start at the central bank, which will open its doors to children and young people, transforming into a friendly and interactive education space on financial topics. Visitors will have the opportunity to explore the exhibition hall and admire the collection of commemorative coins issued by the National Bank of Moldova as well as representative coins of other countries. They will also learn about the historical documents of the NBM on display and hear the story of the emergence and evolution of the national currency.

Students, pupils and the entire audience will have the chance to watch a presentation about the security features of the Moldovan Leu and their modernization.

The second part of the excursion will take place at the premises of licensed banks, which have prepared engaging and useful financial education activities for young consumers, as part of a joint effort to provide them with a clear, well-informed perspective on the financial sector.

Now in its 6th edition, the "Road of Money" excursion offers an opportunity for financial education of the young public and stimulates interest in financial topics. The objective of this annual event organized by the National Bank of Moldova responds to society's need to cultivate a well-informed generation that can make responsible financial decisions that contribute to personal well-being and, implicitly, to the well-being of society as a whole.

The event is part of the series of activities organized by the NBM to mark the Moldovan Leu Anniversary on November 29, 2024, the day on which we celebrate 31 years since its introduction into circulation.
