## External debt at the end of Q I 2017 (preliminary data)

[External debt at the end of Q1 2017 \(preliminary data\)](#) <sup>(1)</sup>

The total stock of gross external debt calculated according to BPM6 standard (EDS 2013) is the same as according to BPM5, but with changes in structure. The arrears on external debt service are reflected not as a separate component, but together with the loans to which they refer. Other arrears are divided by maturity, particularly the debt for the import of natural gas is included in the long-term debt within intercompany lending under direct investment.

The gross external debt of the Republic of Moldova reached US\$ 6,688.60 million at the end of Q I 2017, increasing by US\$ 93.91 million (1.4%) as compared to the end of 2016.

Gross external debt of the Republic of Moldova, end of period (US\$ million)
