Message of the Governor of the National Bank of Moldova, Anca Dragu, on Europe Day

[1]

9 May, the Day of Peace and Unity in Europe, has a special significance for me this year - I have the opportunity to celebrate the fundamental European values as Governor of the National Bank of Moldova, a country that is in full swing on its accession journey.

Today we have the opportunity to reflect on our shared values - respect for human rights, freedoms, the rule of law, democracy - which guide us in our efforts to build a more prosperous and equitable future for all citizens. Coordination and collaboration between Member States and acceding countries is essential to ensure financial stability and sustainable economic growth across Europe.

Accession to the European Union is a significant leap towards the modernisation and development of the Republic of Moldova, creating prospects for development, stability and prosperity. As Governor of the National Bank of Moldova, I am committed to contributing to strengthening our relations with European partners and to fulfilling the role of the NBM in the accession process.

The National Bank looks with confidence and determination towards our European future, contributing decisively to the fulfilment of the specific economic criteria. We are thus strengthening the banking system

while providing a safer and more investment-friendly environment. Integration into European structures opens up numerous prospects for improved banking services, greater access to development funds, advanced technologies and new markets, which will directly benefit each Moldovan citizen.

Today we celebrate our commitment to peace, prosperity and solidarity throughout the region. Happy birthday, Moldova, happy birthday, Europe!
