Money transfers from abroad made in favour of individuals through banks of the Republic of Moldova in the third quarter of 2018 (net settlements)

In the third quarter of 2018, the total amount of money transfers from abroad made in favour of individuals of the Republic of Moldova amounted to USD 314.67 million. It should be mentioned that a share of 83.9 percent of money was transferred via money remittance systems (in USD, EUR and RUB), mainly without opening bank accounts, whereas 16.1 percent represented bank transfers (in different currencies) carried out via the SWIFT system, presented in gross settlements.

In the third quarter of 2018, the amount of transfers, recalculated in USD, decreased by 1.8 percent, compared to the third quarter of 2017 (USD 320.59 million). The fluctuations in the exchange rate of original currencies against the U.S. dollar (Chart no.1) contributed by 0.2 percentage points to the increase in the value of transfers in the third quarter of 2018. However, the effective decrease of transfers was 2.0 percent, being eliminated the exchange rate effect through the recalculation of amounts at the exchange rate for the respective period of the previous year. This occurred as a result of the impact of increase in transfers in EUR by 13.3 % and the decrease in transfers in USD and RUB by 11.4 percent and 22.7 percent, respectively. Thus, in the third quarter of 2018, the currency structure of transfers (recalculated in USD) was the following: USD - 136.79 million, EUR - 153.73 million, RUB - 20.95 million and other currencies 3.20 million. Chart no. 1 shows the impact of the USD/EUR and USD/RUB exchange rate's modification on the volume of monthly transfers in favour of individuals.

Currency structure of money transfers from abroad in favour of individuals via money transfer systems (2013-2017 - annual dynamics; 2015-2018 - quarterly dynamics), %

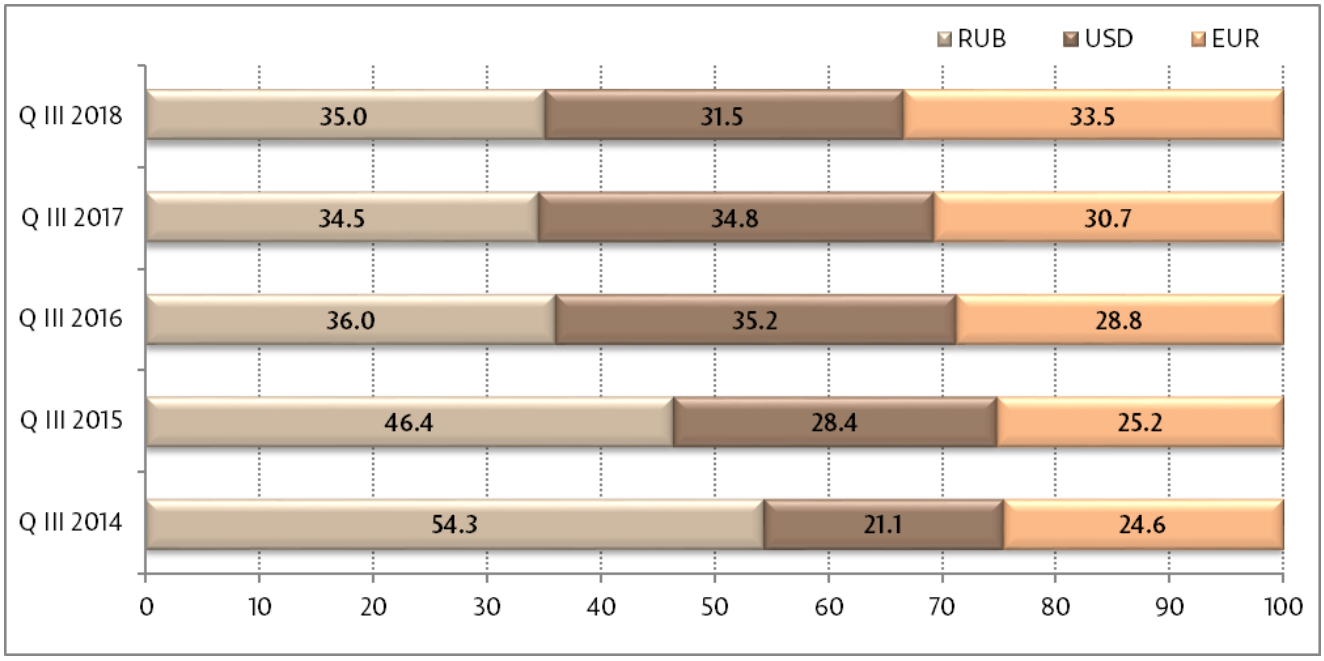

SOURCE: International banking operations statistics of the NBM

In the third quarter of 2018, as compared to the same period of the previous year, the quarterly share of transfers in EUR (recalculated in USD) increased by 7.5 percentage points, to 46.7 percent, while the quarterly share of transfers in USD and RUB (recalculated in USD) decreased by 5.5 percentage points, to 45.5 percent, and by 2.0 percentage points, to 7.8 percent, respectively. Thus, the share of transfers in EUR recorded an upward trend, having increased from 32.3 percent in the third quarter of 2015 to 46.7 percent in the third quarter of 2018 (Chart no.5).

Chart no. 6.

Currency structure of money transfers via money transfer systems from the Russian Federation, recalculated in USD, in the third quarter of the years 2014 - 2018, %

SOURCE: International banking operations statistics of the NBM

In the third quarter of 2018, the transfers from the Russian Federation via MTS (Chart no.6), in quarterly average values (recalculated in USD), consisted of: transfers in RUB holding a share of 35.0 percent, transfers in EUR - 33.5 percent, and the transfers in USD - 31.5 percent. During 2014 - 2018, the share of transfers in EUR from Russian Federation recorded a steady increase, growing from 24.6 percent in the third quarter of 2014 to 33.5 percent in the third quarter of 2018.

NOTE:

The National Bank of Moldova notes that money transfers from abroad in favour of individuals via banks do not consist solely of remittances of Moldovan citizens working abroad, but also include unilateral transfers such as:

1. local transfers, including salary transfers in favour of resident individuals from non-residents representatives (representative offices of international financial institutions, international organisations, and representations of foreign economic agents) in the Republic of Moldova (1.0 percent

of the total transfers);
2. transfers in favour of non-residents who are temporarily in the Republic of Moldova (0.4 percent of the total transfers via MTS);
3. pensions (social and maintenance) and allowances (0.3 percent of the total transfers).

Money transfers from abroad in favour of individuals through Moldovan banks also include transfers of individuals made via postal offices of the State Enterprise "Poşta Moldovei" (settled through banks), both via MTS and money orders.

Note that this indicator does not include:
a) international transfers to individuals made via SWIFT payment system with an investment purpose (with significant values), which amounted to USD 6.34 million in the third quarter of 2018;
b) international transfers via SWIFT payment system to non-resident individuals, clients of licensed Moldovan banks;
c) transfers made via banks located in the Transnistrian region of the Republic of Moldova.
