NBM urges citizens to get informed from official and credible sources

The National Bank of Moldova (NBM) urges citizens to get informed from official and credible sources to avoid making immediate decisions, which, due to emotions, may be unwise ones. Thus, truthful information about the banking sector can be found on the NBM website [1], as well as on the websites [2] of the 11 licensed banks in the Republic of Moldova, which also provide details on up-to-date foreign exchange operations.

NBM reconfirms that the banking sector of the Republic of Moldova remains strong and has large reserves of money, including in EUR and USD. Likewise, our country has foreign exchange reserves to ensure financial stability in the event of a crisis.

Thus, there is no reason for concern and commercial banks gave assurances that depositors' money was kept safe, offering the full range of financial services and products to all their customers.

At the same time, the National Bank reiterates that monitors carefully all developments taking place both locally and internationally and, if necessary, is ready to intervene with measures in favour of the population and our country.
