The NBM will organize a financial education event for children on June 1

On the occasion of the International Children's Day, the National Bank of Moldova will organize, on June 1, 2022, at 10.00, a financial education event entitled "In the MDL coin's world". The event is intended for children aged 5-7 and will take place online to allow participation from all over our country.

Participants will find out curiosities about the origination and destination of money, why and how it has been used since ancient times until now. Also, the Central Bank employees will tell the children about the commemorative coins issued by the National Bank of Moldova, especially about the coins from the "Childhood fairy tales" series.

The event will take place on ZOOM and will be an interactive one.

Educators and parents interested in this event can register at edufin@bnm.md [1] by May 31, 2022 to receive the login link later.

The project "In the MDL coin's world" was launched in 2021 and aims to familiarize children with the financial topics.
