Deadline for design contest for jubilee and commemorative coins, 2023 is extended

The National Bank of Moldova (NBM) has responded to requests from citizens to extend the deadline for the design contest for jubilee and commemorative coins, 2023.

Thus, interested persons can submit design projects **until June 5, 2023, at 14.00**. In this context, the National Bank encourages all citizens who have reached the age of 18, as well as legal entities, to express their graphic vision of future coins. The number of drafts submitted by a participant for a topic is not limited. Participants are required to comply with copyright and related rights. By participating, the author of the design agrees to the processing of personal data.

The basic criteria for the selection of the submitted projects refer to originality, creativity, and coherence of the design elements, making it possible to execute them on the surface of the coins.

The requirements for the design of the coins, examination and evaluation conditions, remuneration, including other important details, are set out in the Design procedure for jubilee and commemorative coins, 2023 [1].

Detailed information on jubilee and commemorative coins issued by the NBM so far can be accessed following the link: http://www.bnm.md/en/content/commemorative-coins [2]
